

ANSWERING THE CALL NEEDS YOU!

- Many first responders gave their lives on 9/11, their heroic acts saved countless individuals, on that fateful day. These heroic acts occur everyday in our community by our first responders. Daily, they run towards what we run away from, they serve our communities knowing the oath they took could be their last and final act.
- ATC911 is asking for your continued help in supporting our mission by making a yearly donation of \$40 on September 11th so that we can continue to assist our First Responders when they need it most. Your one time donation of \$40, will help ATC fulfill our commitment of financially supporting our First Responders after they suffer a severe injury, or illness.
